On 29/10/ 2020, Dr. T. Jaggaiah, Principal of IIBS and Dr.Samiya Mubeen arranged the Seminar on women empowerment and the role of education for the students of both UG and PG. The resource person was Asst.Prof. Archita K.M, who exceptionally made aware of the role of education in the present scenario. During the session Madam explained the role and significance of womanhood in the society where women manage every single aspect of life - it can be both personal and professional life. The session was very interactive where students got the facts and figures that should be taught as soon as a child reaches an age when he/she starts to be aware of the strengths of the women. Lots of the harsh reality about women being victim towards gender inequality, domestic violence, molestation, rape, dowry, differences in the work culture, biases, etc. is explained in the session.

Knowledge and education are the birth right of every girl child born in India. But sadly, due to the highly patriarchal nature of our society, most of the women in the country are devoid of this right. As we are now beginning to understand, the society cannot function without the active contribution of women but in the majority of the rural (in some cases, even urban) parts of India, Indian women are still considered to be incapable of taking independent decisions. As education opens the doors to a new enlightened world, it enables women to make their own life choices about anything and everything, whether it is lifestyle, career, sexuality, life-partner, food etc. Education is the key to understanding the difference between right and wrong, standing up against oppression and gender discrimination and making correct choices in life. Education allows women to ignore moronic societal diktats and live life on their own terms.

Asst. Prof. Hyma discussed how we are totally unaware that the spread of Covid-19 and the lockdown have brought in acute deprivation for rural, marginalized communities with loss of wages, returnee migrants and additional state-imposed barriers to accessing facilities and public provisions. Patriarchal norms amplified in such a crisis along with gender-blind state welfare policies have rendered women in these communities “invisible”. This has impacted their access to healthcare, nutrition, and social security, and significantly increased their unpaid work burden.

Session was made interactive by showcasing points on how several manifestations of violence, and mental stress have surfaced, diminishing their bare minimum agency and rights, and impacting their overall health and wellbeing. We have adopted an intersectional approach to highlight how intersections of several structures across multiple sites of power: the public, the private space of the home and the woman’s intimate space, have reduced them to ultra-

vulnerable groups. In India the women, children, scheduled castes and scheduled tribes, persons with disabilities, migrants and aged are regarded as marginalized or vulnerable groups. These people are socially, economically, politically, and legally ignored and excluded in Indian society. It has been seen from the data that in Indian patriarchal society the women's especially the rural and tribal face domestic violence, physical and sexual abuse, nutritional and psychological problems which has a profound effect upon their health status. The health status and utilization patterns of ST's and SC's give an indication of their social exclusion as well as an idea of their linkages between poverty and health. The economic dependence, politically powerless and culturally subjugated of ST's and SCs to upper castes effects.

During the seminar, Madam gave many examples and interacted with students for their input.

Outcome of the event: This practical session helped the student in understanding the concept of Gender health and marginalization in rural communities. 120 students benefited from this event.

The International Institute of Business Studies has organized an awareness session on the topic "Gender Sensitization" on 30th October 2019 between 4:30 pm & 5:30 pm. The seminar was conducted for all the UG students of BCOM , BBA and BCA. Asst. Prof Chaitra Y.N, was the resource person for the session. She discussed gender, gender equality and inequality, gender inequality problems, major reasons for gender discrimination, sexual harassment in the workplace, sexual harassment prevention training, and so on.

The speaker laid stress that all the teachers should allot 5-10 minutes daily sensitizing children as gender sensitivity cannot be taught from books. We as teachers, should enlighten the students that they should research more, about myths, about beliefs, such as men cannot cry, women aren't physically strong etc.

Take-home points:

- Gender and sex are not synonymous. - The biological and physiological characteristics that distinguish men and women are referred to as sex. Gender refers to the socially constructed roles and behaviours that a society believes proper for men and women. (What is given to us)
- Gender Inequality - Unfair and imbalanced outcomes for girls and boys/ women and men occur in schools, households, and other settings due to unequal and unequal distributions of power and opportunities.
- Discrimination based on gender roles and norms - Any distinction, exclusion, or restriction based on socially imposed gender roles and norms that prohibits a person from fully exercising their human rights.

She suggested encouraging more activities and situations for girls and boys to express themselves freely and develop self-confidence and mutual trust. With this session students got open environment to discuss about gender inequality problems, major reasons for

On 28<sup>th</sup> Feb 2019 and 1<sup>st</sup> Mar 2019, IIBS College has organised a seminar on "Understanding gender equality in constitution" at Bengaluru airport campus for both UG and PG students. Prof. Ashok Matcha was the chief speaker of the event.

In the seminar he emphasised that the Constitution guarantees women equal rights and a "positive discrimination" in their favour. He offered a quick overview of the numerous offences against women that are punished, as well as the different safeguards in place to protect women from assault and prejudice. He also stated that society has assigned specific roles to men and women, and that we have been socialised to believe that way.

He shed light on India's rising gender disparity, despite the enactment of many regulations and initiatives aimed at women's empowerment. He highlighted the most worrisome problems that women in India confront, such as domestic abuse, female pre-birth elimination, and sexual violence, using a UN Population Fund report. He claimed that the Constitution and its provisions alone would not be enough to address the problem, and that religious and cultural practises should not be utilised to promote gender discrimination.

He advocated for the Transgender community's equality and fairness. He claims that, even though the constitution guarantees equal rights to all genders, they are not even regarded a 'gender' in society. He brought up the fact that, despite Kerala being the first state in India to implement a transgender policy, transgender people are still being ridiculed and pushed out of venues. Even though it is a constitutional and judicial right, violence against the transgender population is not challenged and is dismissed as if they are not a part of society. He ended by pleading with people to think of them as 'Human Beings' at the very least.

Outcome of the event: This seminar made students learn the Constitution rights of women which guarantees equal rights and a "positive discrimination" in their favour. They got the overview of the numerous offences against women that are punished, as well as the different safeguards in place to protect women from assault and prejudice. 120 students participated in this event.

A Seminar was conducted at the International Institute of Business Studies on January 11, 2018 for all the postgraduate students of 1<sup>st</sup> sem and 3<sup>rd</sup> sem MBA students. The session was conducted by Asst.Prof. Anil Kumar on the topic Gender Equality. He has shed insights on how gender equality will help in the development of the nation.

Asst. Prof. Anil Kumar started the seminar by giving introduction to Gender Equality, where he explained that equality can also be defined as the situation where every individual has the same

rights and equal opportunity to grow and prosper. Every individual of society dreams for equal rights and access to resources available at their disposal, but there is a lot of discrimination. This discrimination can be due to cultural differences, geographical differences, the colour of the individual social status and even gender. The most prevalent discrimination is gender inequality. It is not a localized issue and is limited to only certain spheres of life but is prevalent across the globe. Even in progressive societies and top organizations, we can see many examples of gender bias.

Gender equality can only be achieved when both male and female individuals are treated similarly. But discrimination is a social menace that creates division. This social stigma has been creeping into the underbelly of all of society for many centuries. Gender Equality builds a Nation In this century, women and men enjoy the same privileges. The perception is changing slowly but steadily. People are now becoming more aware of their rights and what they can do in a free society. It has been found that when women and men hold the same position and participate equally, society progresses exclusively and creates a landmark. When a community reaches

gender equality, everyone enjoys the same privileges and gets similar scopes in education, health, occupation, and political aspect. Even in the family, when both male and female members are treated in the same way, it is the best place to grow, learn, and add great things. This will surely advance our society to a new level.

The social stigma of women staying inside the house has changed. They are also creating landmark development in their respective profession. Women are now seeking economic independence before they get married. It gives them the confidence to stand against oppression and make better decisions for themselves. The age-old social structure dictated that women need to stay inside the home taking care of all when men go out to earn bread and butter. This has been practiced for ages when the world outside was not safe. Now that the time has changed and we have successfully made our environment quite safer, women can step forward, get educated, pursue their passion, bring economic balance in their families, and share the weight of a family with men. This, in a cumulative way, will also make a country's economy progress faster and better.

During the seminar, Sir gave many practical issues and asked for students' input. He gave many live examples and role plays which gave more clarity on the topic and helped students in interpreting the topic better.

Outcome of the event: At IIBS this practical oriented approach made each and every student to have great understanding about the subject and give their own thoughts and added value to the discussion. 85 students benefited from this session.

**EVENT NAME:** Seminar on “Gender Sensitization”

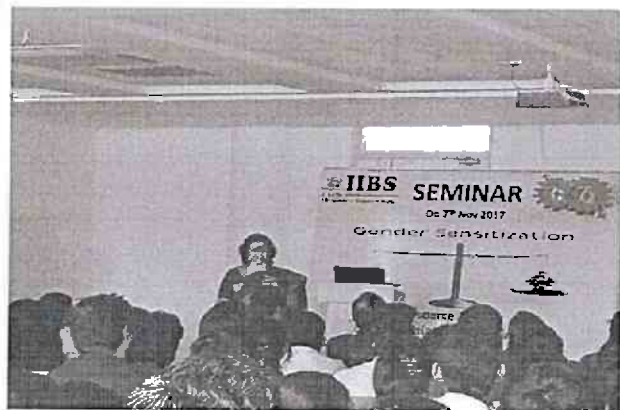

**DATE:** 7<sup>th</sup> November 2017

**TIME:** 11:30-1:30 PM

**PLACE:** Seminar Hall 2

**Resource Person:** Dr. Cynthia Menezes Prabhu  
Professor & Coordinator  
Dept. of Management  
Bangalore University

On 7<sup>th</sup> November 2017, Dr. T.Jaggiah, Principal, IIBS College, and Prof.Samiya Mubeen arranged the Seminar on Gender Sensitization for both UG and PG students. The resource person for the seminar was Dr. Cynthia M Prabhu Coordinator and Professor, Department of management studies, Bangalore University. In the seminar Dr.Cynthia started with introduction and covered areas of gender inequality, domestic violence, molestation, rape, dowry, etc. The topic itself was a serious topic, one which is also very relevant and important, in the current situation and circumstances in India. This is a topic that should be taught as soon as a child

reaches a tender age.

  
Principal  
International Institute of Business Studies

Bangalore North - 562 157.

During the session Dr. Cynthia explained the importance of gender equality through a few videos with very powerful messages. Those became memorable as Dr Cynthia made the crowd laugh by her stories which, psychologically speaking, would make a person remember a moment better because a human brain loves to remember happy moments rather than serious ones. She added humor as well as seriousness in a situation with such perfect harmony that the crowd was laughing along with her and they were genuinely serious at times she wanted them to be serious about.

Another admirable quality about Dr Cynthia is the way she does not mince words. There are plenty of lecturers who would shy away from discussing topics of a tad more sensitive nature than the Indian audience are accustomed to, but Dr Cynthia tackled them head on in a very mature way. She explained the difference between sex and gender and how the songs of today's generation explicitly talks about rape. Tackling such a topic is very difficult and tricky. But Dr Cynthia handled it exceptionally well and that too without using euphemisms or double meaning gestures/phrases.

The seminar was exceptionally well made with a serious as well as an entertaining tone. She emphasized on saying 'NO' and also informed us about the child helpline, women helpline and the anti trafficking cell. She gently brushed upon the topics of human trafficking and how many women actually take the dowry law to their advantage and misuse it.

Outcome: The session brought awareness to the students about Gender Sensitization. The students' queries were well received and answered by Dr Cynthia. 105 students benefited from this event.

## Implementation of Increase in Girl Student Enrollment

Dear Dr. Tripuraneni Jaggaiah,

I am writing to inform you about the IIBS should ensure remarkable increase in girl student enrollment at IIBS for the academic year 2019-2020. I believe it is crucial to implement necessary measures to support this growth and ensure a positive and inclusive environment for all students.

The increase in girl student enrollment is a testament to our efforts in promoting gender equality and providing equal educational opportunities. I commend the collective efforts of our faculty and staff in creating an atmosphere that fosters inclusivity and encourages female students to pursue their academic aspirations.

To effectively implement this increase in girl student enrollment, I hereby provide the following directions:

**Supportive Infrastructure:** Ensure that the campus facilities and resources adequately cater to the needs of our growing female student population. This includes providing safe and comfortable accommodation, clean and well-maintained restrooms, and designated spaces for female students to study and socialize.

**Scholarships:** Explore avenues for providing scholarships and financial aid specifically for deserving female students.

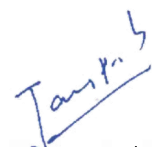

**Gender Sensitization:** Organize workshops, seminars, and training sessions for students to promote gender sensitization and awareness. Create an inclusive educational environment that encourages open dialogue, respect, and understanding among all members of the college community.

All the financial obligations for the development of infrastructure and scholarships shall be supported through Shrimati B. Devi Educational and Charitable Trust.

I trust that you will diligently execute these directions and ensure their effective implementation. Let all IIBS team collectively work towards creating an educational, gender supportive environment where every student feels valued, supported, and inspired to reach their full potential.

Let IIBS's cooperation and dedication to our shared vision ensures promotion of gender equity and inclusivity.

Warm regards,

Dr. Jay Prakash.

Chairman, IIBS.

## Gender Audit

### Girl Student Enrolment Ratio at IIBS

Over the past few years, the International Institute of Business Studies (IIBS) has witnessed a significant and consistent increase in girl enrollment, reflecting a positive trend towards gender inclusivity and equal opportunities in education. The data reveals a remarkable growth in the number of girls opting for higher education at IIBS.

In the academic year 2017-2018, there were 43 girls enrolled at IIBS. This marked the beginning of the upward trajectory in girl enrollment. The subsequent academic year, 2018-2019, saw a noticeable increase with 50 girls joining the institute. This initial growth indicated a growing interest among girls to pursue their educational aspirations at IIBS.

The momentum continued to build as the academic year 2019-2020 witnessed a significant leap in girl enrollment, reaching a total of 102 girls. This substantial increase showcased a rising recognition of IIBS as an institution that promotes gender equality and provides a supportive environment for girls to thrive academically.

Building upon the success of the previous year, the academic year 2020-2021 witnessed an even more remarkable growth in girl enrollment. The number of girls reached 121, highlighting the increasing appeal and trust that female students placed in IIBS as their preferred choice for higher education. This growth can be attributed to the institute's commitment to fostering a safe and inclusive environment, implementing gender-focused initiatives, and providing additional scholarships for girl students.

The most recent academic year, 2021-2022, marked another significant milestone in girl enrollment at IIBS. The number of girls rose to an impressive 141, reflecting a continued trust and recognition of the institute's efforts in promoting gender equity, inclusivity, and quality education.

Several factors can explain the consistent increase in girl enrollment at IIBS. First and foremost, the institute's commitment to gender equity and inclusivity has been evident through various initiatives such as the enforcement of a campus code of conduct, the establishment of committees to address grievances, and organizing seminars and workshops focused on women's empowerment and gender sensitivity. These efforts create a safe and supportive environment that encourages more girls to pursue their education at IIBS.

Additionally, the provision of scholarships specifically for girl students plays a crucial role in attracting and retaining female talent. By offering financial support, IIBS has eliminated financial barriers and created equal opportunities for girls to access quality education.

The positive word-of-mouth and reputation that IIBS has gained over the years have also contributed to the consistent increase in girl enrollment. As more girls experience the supportive and inclusive environment at IIBS, they become ambassadors for the institute, encouraging their peers to join them in pursuing their educational journey at the institute.

The consistent increase in girl enrollment at the International Institute of Business Studies (IIBS) is a testament to the institute's commitment to gender equity, inclusivity, and providing a safe and supportive educational environment. Through various initiatives, scholarships, and the establishment of a reputation as an institution that values and promotes equal opportunities, IIBS has successfully attracted and retained a growing number of girls, empowering them to excel in their academic pursuits.
